

Measurement Units

Quest Academy | Ages 9-11

Maths | Measurement

Inside this printable

- 8 activity pages for focused practice
- Simple instructions and generous writing space
- A final answer/help page for grown-ups

Print on A4 at 100% scale. Use pencil or crayon unless the activity says otherwise.

Measurement Units

Read each prompt and write your answer.

Choose mm, cm, m or km for a pencil.

Choose g or kg for a school bag.

Convert 300 cm to metres.

Which is longer: 2 m or 150 cm?

Estimate the height of a door in metres.

Measurement Units

Read each prompt and write your answer.

Choose mm, cm, m or km for a pencil.

Choose g or kg for a school bag.

Convert 300 cm to metres.

Which is longer: 2 m or 150 cm?

Estimate the height of a door in metres.

Convert 300 cm to metres.

Which is longer: 2 m or 150 cm?

Estimate the height of a door in metres.

Grown-up help & answer guidance

Use this page as light guidance rather than a score sheet. Encourage the learner to explain their thinking and try again when needed.

Helpful routine

1. Read the instruction together.
2. Let the learner try independently.
3. Ask: "How did you work that out?"
4. Correct one small thing at a time.
5. Finish with a success they can name.

Answer guidance

Many pages are open practice, tracing, colouring, reading or writing tasks, so there may be more than one acceptable response. For number facts, check the calculation. For language tasks, look for a sensible word or sentence that follows the instruction. For reading tasks, accept answers supported by the passage.

BrightPencil rule: progress matters more than perfection.
