

BRIGHTPENCIL KIDS

Times Tables 2, 5 and 10

Grade 2 | Ages 7-8 | Math

This pack helps learners practise

Skip counting, repeated addition, arrays and fact practice for the 2, 5 and 10 times tables.

Print-friendly | Original learning content | Adult-guided

1. Keep it short

Use one or two activity pages at a time. Younger learners benefit from short, positive sessions.

2. Read the directions

An adult can read instructions aloud and model the first example when helpful.

3. Encourage thinking

Ask the learner to explain a choice, count aloud, sound out a word, or describe what they notice.

4. Revisit later

Repeat a page after a few days if the skill is still developing. Progress matters more than speed.

Name field

Write the learner name only on your printed copy if you wish. The public website does not need a child account to use this resource.
